Chas. Myers Found Dead in Bed.

Chas. Myers, aged 48 years, a carpenter by trade was found dead in bed at the home of Preston See, on West Eighth street yesterday morning about 9 o'clock. Myers was a boarder at the home of Mr. See and the latter was moving to the residence on Eighth street, where the body was found. A quantity of the household goods had been moved Saturday and Myers was staying at the house. He retired about 9 o'clock Sunday night, apparently in good health.

Yesterday morning when Mr. See, with a wagon load of furniture, went to the house about nine o'clock he found the doors locked. An entrance was made to the house and the body of Myers was discovered lying across the bed.

Myers was unmarried and formerly of Carlisle. He had been in Paris about six years. Last week he visited relatives in Carlisle returning to Paris Thursday. Coroner Rudolph Davis conducted an investigation and pronounced death due to natural causes. It is said Myers was a great sufferer from asthma, which was probably the cause of his death.

Two brothers, Wallace and William Myers, reside in this city and the deceased has two sisters, Mrs. Addison Ginn and Mrs. W. McCracken residing in Carlisle. The body was removed to the undertaking establishment of Mr. Geo. W. Davis, where it was prepared for burial and was last night taken to the home of Mr. Ora Bannister, on South Main street. The funeral will be held this afternoon at 3:30 o'clock at the grave in the Paris cemetery conducted by Elder J. T. Sharrard.

Hauser and Delephant Report Here

James Hauser, of Lyons, Ind., a member of the pitching staff of the Burtonites last year, who it was reported would not play ball this year, reported for duty Saturday night. He has signed his contract and with a few days rest will be ready to begin work.

Catcher Lawrence Delephant, of Auburn, N. Y., who was signed by Manager Lewis, was another of the recruits to report for a try-out, and is ready to go into training.

The next exhibition game will be played here with Transylvania University, of Lexington, Thursday afternoon. The game will be called at 3:15.

Lyman Howe's Travel Festival.

Lyman H. Howe's travel festival, which comes to the Paris Grand for one night only, Thursday, April 18, will without doubt be the most interesting exhibition seen at the grand this season. Mr. Howe is always a welcome visitor in every city in which he plays, and his semi-yearly trips are always looked forward to with much pleasure.

His program this year is said to be the most interesting he has ever produced. It is of two hours duration and at the end one can almost imagine he has finished a complete tour of the world.

For the proper and complete presentations of his pictures Mr. Howe carries two complete outfits of machines, two operators, and a company of eight people to produce the proper effects of all the pictures, including the conversation. This will be the first time the talking pictures have been produced in Paris.

The advance sale of seats is now on at Mitchell & Blakemore's. Prices: Lower floor, 50 cents; balcony, 35 cents; gallery 25 cents.

Big Damage Suit Against L. & N.

Barton C. Harp, as administrator of Mrs. Fannie Harp, Ruth Harp, William Harp, his wife and two children, filed suit in the Fayette Circuit Court Saturday against the Louisville & Nashville railroad company for damages in the sum of \$75,000. The suit, which is the largest ever filed in the Fayette Court, grew out of the death of Mrs. Harp and the children, as the result of being struck by a passenger train of the defendant company.

The accident occurred on November 2, 1911, at the Louisville & Nashville crossing on the Houston and Ware pike, a short distance from Hutchison, this county. In the accident Miss Lula Hughes, a sister of Mrs. Harp, was also killed. Mrs. Harp, whose home was in Lexington, in company with her children, came on the interurban car to the station near the Hutchison pike, where they were met by Miss Hughes, in a vehicle, and were enroute to the home of Mrs. Harp's parents for a short visit.

The northbound train from Lexington struck the vehicle killing the occupants almost instantly. They were picked up and brought to this city. The train was in charge of Engineer Lawrence Dickerson and Conductor Rippetoe, of this city, who were exonerated by the jury at the investigation conducted by Coroner Rudolph Davis.

Lime For Agricultural Purposes.

Much interest is being manifested in the use of lime and limestone on our soils. The larger portion of our cultivated soils are either acid or contain only a small amount of carbonate of lime (limestone). For best results on such soils it is necessary to use lime of some form. The nitrogen gathering plants (clovers, alfalfa, etc., do not grow well on acid soils, hence it is difficult to keep up the nitrogen supply of the soil under such conditions. The organisms which render the nitrogen of the soil available do not work well in the absence of the carbonate of lime, hence the non-nitrogen gathering plants do not make their best growth. There is an almost universal opinion that soils derived from limestone rock contain sufficient carbonate of lime. This is not true. Such soils are very apt to be deficient in limestone because the rains dissolve it out. The purer the limestone the more readily it is dissolved. Caves and sinkholes of limestone regions are due to water dissolving away the rock.

Raw ground limestone is the best material to use. Burnt lime corrects sourness, but it is also a powerful soil stimulant and cause a rapid loss of the organic matter and nitrogen of the soil.

The test to determine whether limestone is needed is to prepare two plots of equal size and seed to clover or alfalfa, using ground limestone on one at the rate of 4 or 5 tons per acre, and weighing the yields of hay. The use of limestone on the Experiment Station farm increased the yield of alfalfa hay from 2050 pounds per acre to 3540 pounds per acre the first cutting.

Ground limestone should be applied at the rate of three or four tons per acre in the beginning and one ton per acre every four or five years thereafter. It is best to apply it after the ground has been broken and thoroughly disk or harrow it in.

If burnt lime is used, about half of this amount of the freshly burned material should be applied, but it should be thoroughly slaked before application. Under no circumstances would we recommend burnt lime if the ground limestone can be obtained. Where there is good demand for ground limestone it is usually delivered on cars at plant for a dollar or less per ton, in carload lots in bulk.

The Only Solution.

The impression is steadily gaining ground that the Democratic excise-income tax, which proposes to place upon wealth a part of the burden of sustaining the government, will pass the Senate and the White House. Senator Penrose, who pretends to be the leader of the Stand-patters in the Senate, has made the statement that none of the Democratic bills would be allowed to pass the Senate, but it is becoming more and more apparent that Senator Penrose and those of his kind who have assumed in the past to rule the Senate no longer have the power to "allow" certain measures to pass, or prevent others from passing.

The truth is, a great many Senators on both sides of the chamber, either because they are at last frightened by the wave of protest against the high tariff injustice, or because they believe in the inherent right and justice of the income tax measure, have come to look favorably on the bill. At least there has been a cessation of the talk about the "unconstitutionality" of the measure, and since this argument has always been the Stand-pat answer to all logical proposals, the sign is considered a good one. Nobody pretends to know, of course, what the ultimate fate of the present bill will be but from the popular approval that has been accorded the measure, it is admitted by all that such legislation must come eventually.

The present tariff law raises about \$300,000,000 annually in government revenue. And for every dollar of revenue thus turned into the United States treasury, it is estimated by democratic leaders in Congress, who have studied the matter from every possible angle, that the tariff barons put five dollars into their own pockets in the form of loot. In other words, the tariff gives these beneficiaries the right to collect five dollars in tribute for every dollar the government collects in revenue.

This condition is alone responsible for the horde of mushroom millionaires in this country. On every article of daily use the people of this country pay this "five-to-one" tribute.

In the past, the tariff tarons have urged tariff for two principle reasons. First, they pretend that they desire to "protect" American workmen. That this argument, which the protectionists in Congress listened to with a willing ear for the past sixteen years, is a farce, pure and simple, has been proven beyond a doubt by the Democrats at this session of Congress, chiefly through the various investigations into trust methods. Secondly, the trust heads pointed out that in no other way could revenue be collected for the governments support. They thus gave their plea for a tariff the form of an excuse.

Having disposed of the first "reason" for keeping up the tariff, the Democrats, through the excise-income tax bill, have offered a solution of the other alleged difficulty.

"My little son had a severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was as well as ever," writes Mrs. H. Silk, 19 Dowling street, Sydney, Australia. For sale by all dealers.

True Giving.

Saves Leg of Boy.

"It seemed that my 14 year old boy would have to lose his leg on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone, N. C. NATURE'S ESSENCE...Extracted From Forest Plants.

Nature's laws are perfect, but disease follows if these laws are not obeyed. Go straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the wild-cherry tree, the root of mandrake, stone, Oregon grape root, queen's root, bloodroot and golden seal, make a scintillating, non-alcoholic extract of them with just the right proportions and you have

Doctor Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this pure glyceric extract and alternative of the greatest efficiency and without the use of a particle of alcohol.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic.

"Some time ago I got out of health—my stomach seemed to be the seat of the trouble," writes Mr. EZRA WILLIAMS, of Belleville, Kan. "I commenced to doctor with all the doctors at home as well as with other specialists on stomach and digestive organs. None seemed to do any good—in fact, most of the medicines did me harm. Finally, I wrote to Dr. Pierce, Buffalo, N. Y., who replied, stating that I had liver complaint with indigestion and constipation, and advised Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets'."

"The 'Discovery' and 'Pellets' have 'put me on my feet again'—seemed to be just what I needed. I could not have recovered without them."

MUGGINS' BAD WINTER

PET BULLDOG HAS FOUND TIME
HANG RATHER HEAVY.

Too Much a Believer in the Stren-
uous Life to Be Pleasant Compa-
nion for His Owner's Mother—
"Last Time," She Says.

Muggins has had rather a dismal
time of it this winter. His master's
extended business trip made it neces-
sary for the bulldog to be left at home
in mother's keeping. She is afraid to
take him out except on the leash, as
he is so fond of raising a rumpus with
other dogs. But she does not consider
it either dignified or enjoyable to be
towed along, because Muggins will
act the part of a stout tug against
which human muscle is of no avail.
So poor Muggins has stayed in the
house a large part of the time, which
disgusts him. Now and then neigh-
bors volunteer to give an outing to
him, but when Muggins has rushed
them about for half an hour or so
without a pause for breath, they feel
they have had more of an outing than
Muggins did, and their offer seldom
is repeated.

At first mother thought the ques-
tion of home amusement for Muggins
would be solved easily, as he had in-
vented a game for himself of which he
never tired. This consisted of digging
a half brick or good-sized stone out
of the earth and chasing it about the
yard—giving it sharp pokes with his
nose, then pouncing on it like a cat on
a mouse, only to send it flying with an-
other shove. But when mother saw
two of her choicest shrubs snapped
off like pipestems by Muggins' sharp
teeth, because he couldn't take time
to go round them in his exciting car-
eer, she promptly vetoed the perform-
ance, and poor Muggins can't even
look at a brick without receiving a
reprimand from mother.

He only had had one fight this win-
ter, and that really was not Muggins'
fault. A reputedly ill-natured Irish
terrier went past Muggins' home and
made some very impolite remarks
through the fence. Muggins happened
to be loose in the yard for the mo-
ment, and at once darted out at his
insult. The terrier was with his
mistress, and when Muggins leaped
up into the air and landed directly on
top of her pet—which is his own origi-
nal way of giving battle—she scream-
ed with terror and fled across the
street. Mother had witnessed Muggins'
sudden departure and hurried
out to discover its cause. The dogs
were invisible to her until she reached
the street, but when she heard that
scream her only expectation was to
find a few scattered pieces of some
local dog. To her joy Muggins was
only lying on top of his foe, chew-
ing him up comfortably, while the
yelps rapidly grew louder. Muggins
was hauled off in short order, and the
licked terrier limped rapidly away.
Muggins wagged his stumpy tail and
looked up proudly at mother as
though to say: "Didn't I make him
apologize handsomely?" But mother
declares that this is the last time she
shall act as guardian to her son's
cherished bulldog.

Real Home in the Air.

A novel "home in the sky" was re-
cently constructed in the vicarage gar-
den, at Moulton, Northamptonshire,
England, by the vicar's young son.
The lad one day climbed a tree about
sixty feet high, but was unable to de-
scend. For nearly an hour he had to
remain in his airy cage and a ladder
had to be fetched before he could
reach the ground. Undaunted, he
called in two of his friends, and to-
gether they planned the conquest of
the tree. Pieces of iron were driven
in to give footholds. In the topmost
branches a hut was constructed with
boards. Seats and a table were fitted.
A flag attached to a flag pole which
juts out through the branches marks
the "Peter Pan like" abode. A bi-
cycle wheel from which the tire has
been removed has been fixed at the
top of the tree and is used as a wind-
lass by means of which an oil stove,
for making tea, and other things dear
to the hearts of boys have been hauled
up to the hut.

What It Wouldn't Cure.

On returning to his office from a
round of calls a New York physician
found waiting for him the servant of
a patient. She was the bearer of a
bottle and a note to the effect that the
remedy contained in the bottle had
been recommended by a woman, and
the query, "Do you think I might try
it for my cold?"

In reply the doctor wrote: "I have
not examined what you sent to me
and can offer no suggestion, nor do I
know what ailed your friend when it
'cured' her. But I do know that if
hers was an attack of virulent im-
pertinence she is still uncured."

Man's Own Horn.

"I should think some of these
speech-makers would get tired of hear-
ing themselves," said the proprietor of
the village store.

"Human nature's the same in poli-
tics as 'tis anywhere else," replied old
Joe Struthers. "A man don't mind
listenin' to the worst noise a cornet
kin make, provided he's the fellow
that's doin' the practicin'."

Ups and Downs.

Howell—Times are changing.
Powell—Yes, in a few years so
much business will be done by airship
that those who stay down on the
earth will be considered in the un-
derworld.

Will Organize Corn Club Here.

County Superintendent Miss Mabel Robbins, is planning to organize a corn club in Bourbon county, with a membership of twenty boys. The club last year was a failure, owing to the drought but better conditions are hoped for during the coming summer.

The corn to be distributed among the contestants has been received by Miss Robbins and is ready for distribution as soon as the organization of the club is completed. Following are the awards in the contest:

To each boy growing sixty bushels of corn or more an appropriate diploma will be signed by the Governor of the State, the Commissioner of Agriculture, the Superintendent of Public Instruction and the Superintendent of the County.

To the boy in each county who grows the greatest amount of corn upon one acre, free tuition and board at State University during "Farmers' Week" will be given.

To the boy growing the greatest amount of corn upon one acre in each of the four sections into which the State has been divided, a four year scholarship in State University or State Normal Schools will be given.

To the boy growing the greatest amount of corn upon one acre in the State, a trophy valued at \$100 will be awarded.

To the boy sending the best ten ears of corn to Lexington to be judged at the State Corn Show held the first week in January, 1913, a trophy valued at \$100 will be awarded.

To the three boys who prove themselves the best judges of corn during the Farmers' Week at Lexington awards or cups valued at twenty-five, ten and five dollars respectively will be given.

DEATHS.

BARLOW.

—Squire James T. Barlow, aged 78 years, one of the representative citizens of Bourbon county, died at his home near Centerville Friday evening at 8:30 o'clock after an illness of several months.

Mr. Barlow, a few hours before his death, was apparently as comfortable as he had been at any time during his illness, and after reading a letter from one of his daughters in Texas, conversed freely with his attendant, but about supper time he was attacked by a chill from the effects of which he failed to rally.

Mr. Barlow was a native of Missouri, having been born in Boone county, January 31, 1834, but he lived in Kentucky since 1846. He was the son of Martin B. and Fannie A. Barlow. His mother was the daughter of Joseph Cantrill, Sr., and was born on the farm where Justice Barlow lived and died.

His grandfather was one of the pioneers of Scott county, having located there in 1780. Squire Barlow was married in 1855 to Miss Annie R. Lydick, daughter of Jacob Lydick, of Fayette county, who died November 14, 1911.

To them were born five daughters, all of whom survive. Mrs. Leila Ammerman, of San Antonio, Texas; Mrs. Mollie Hill, of Texas; Mrs. Bettie Stamps, Mrs. Ella Winston, and Mrs. Frankie Johnson, all of Cisso, Texas.

Squire Barlow has been a magistrate of Bourbon county from the Center ville precinct since 1875, with the exception of two terms, and was a member of the Bourbon Fiscal court at the time of his death. He was a man of great integrity and one whose judgment could always be relied upon.

The funeral will take place at the residence between Jacksonville and Centerville this morning at 11 o'clock, with the services conducted by Elder J. T. Sharrard. Burial in Old Union cemetery.

The following will be the pall-bearers and they are the same who bore the body of Mrs. Barlow to the grave: Messrs. Thos. Fesler, J. Will Smith, John Shropshire, Will Cantrill, Eugene Rucker, Allison Barlow, Oscar Carrick and Will Lydick.

DAVIS.

—A message received here Saturday morning announced the death of Mrs. Mary Brown Davis, wife of Mr. Edward Davis, which occurred at Fresno, Cal. Mrs. Davis formerly lived in Paris. She married Mr. Davis and went to Nevada to live, later moving to California.

Mrs. Davis is survived by her husband and one daughter, who lives with her father, one married son in Los Angeles, and three sisters, Mrs. Eliza Parley, Mrs. Maggie Johnson and Mrs. Nannie Maason, all former residents of Paris.

Their father, Mr. John Brown, once owned all of the land from Mr. W. H. Renick's on High street, to Seventh street and running back to Houston creek including the site upon which the city school is now located.

—John Duvall, of Clark county, sold last week to Ohio parties his prize pair of mules for \$600. The mules carried away several blue ribbons at last year's fairs and they were considered remarkable lookers for three-year-olds.

—FOR SLAE.—One 4-year-old mare in foal to jack.

PEALE COLLIER & CO.,

—Blue grass pastures are looking fine and the grass is growing rapidly. Copious showers the latter part of last week helped the grass to a considerable extent and farmers, who, during the winter months were short on feed are welcoming it.

—Gardeners in the city and country have taken advantage of few days of pretty weather last week to put in their gardens. Unseasonable weather retarded the work and as a result all vegetation will be very late. Orchards and grape vines are being trimmed and all trees are in good shape. Grass is coming up nicely and wheat and rye are looking much better than was expected.

Paris Defeats Wiedemann Team.

In the first exhibition game of the season the Paris team defeated the Wiedemann club, of Cincinnati Sunday afternoon at White Park by a score of 8 to 4. The contest was of a rather slow variety and the condition of the ground, which was a trifle muddy, afforded only a fair opportunity of judging what the Bourbonite recruits were able to do. Manager Lewis worked two pitchers in the contest—Meyer and Blankenship—the former occupying the mound in the first three innings while the latter finished the game. The absence of enough men to make up the team compelled manager Lewis to use two pitchers in the outfield, Popkin in left and Woods in center.

The locals laid claim to the contest in the first inning when on a number of passes and three hits they counted seven runs. Myers, who pitched in the opening session, allowed but three hits and one run. Blankenship who went the remainder of the route, opened up badly in the fourth, allowing three hits which counted two runs for the visitors. Settling down he was practically invincible and held his opponents safely until the ninth when another run was counted. The score: Paris.....7 0 0 0 0 1 0 x-8
Wiedemann.....0 0 1 2 0 0 0 1-4

Batteries—Paris, Myers, Blankenship and Meyer; Wiedemann—Thomas, Binder and Mackey. Hits—Paris, 7; Wiedemann 8. Two base hits—Popkin three base hits—Applegate. Errors—Paris 3; Wiedemann 3. Double plays—Benton to Howard to Campbell. Stolen bases—Applegate, Benton, Eider, Finzell. Sacrifice Fly—Sandman Struck out by Myers 6; Thomas 5; Binder 3; Blankenship 3; Base on balls—off Myers 3; Blankenship 2; Thomas 1; Binder 3. Hit by pitcher—Benton, Binder. Wild pitch—Blankenship. Pass balls—Myers 2. Umpire Elgin.

Victory to Cheerful Spirit.
To face life brightly as may be, to learn to laugh at minor troubles, to cultivate a sense of humor, all these mean fewer wrinkles and a longer youth. The Budget knows well one gallant woman upon whom trouble after trouble has been heaped, and who yet is beautiful at an age when many have laid aside every thought of trying to be otherwise than "decently covered," and who is fighting the battle of life, while her contemporaries are knitting by a fireside.—New York Tribune.

Are Learning Right Ways.
An English lady, long resident in Tokyo, once wrote to a friend that the impulse of her Japanese maids is always to sew on cuffs frills and other similar things topsy turvy and inside out. Since the publication of such reports the art of needlework has been greatly improved in Japan. Several of the English methods have been taught with great success, if only to judge by the lovely drawn thread work sold in great quantities in Great Britain.

Ancient Vaults Exposed.
During heavy rains in Kildare county, Ireland, a portion of the walls of historic Kildare abbey, Castledermot, became undermined and fell, when it was discovered that underneath were vaults in which were skulls and human remains. It is calculated that these remains have been there for the last eight centuries, since the time the abbey was a monastery.

History Repeats Itself.
Not long since a restaurant was started on Tenth street just north of Market. It was called "the Napoleon," and the name was on the window in large letters. When the place failed not long after starting, some cruel wag chalked under the word "Napoleon" "at Waterloo."—Pittsburg Dispatch.

Grandfather Holds the Record.
There has been much progress, of course, but still we doubt if the young man who licks up the ground with a six-cylinder snorter thinks any more of himself than did his sturdy grandfather who could make four yokes of oxen perform in front of a big load of freight out of old Jefferson.—Galveston News.

Searches for Buried Treasure.
A countess who lives near Rome is carrying on a search for buried treasure. She found in her library an old manuscript, wherein was told of a treasure buried in her land, and directions given for the excavations. A Spiritualist is said to have informed the countess that the words of the manuscript are true.

Don't Suffer!

"I had been troubled, a little, for nearly 7 years," writes Mrs. L. Fincher, in a letter from Peavy, Ala., "but I was not taken down, until March, when I went to bed and had to have a doctor. He did all he could for me, but I got no better. I hurt all over, and I could not rest. At last, I tried Cardui, and soon I began to improve. Now I am in very good health, and able to do all my housework."

TAKE The CARDUI Woman's Tonic

You may wonder why Cardui is so successful, after other remedies have failed. The answer is that Cardui is successful, because it is composed of scientific ingredients, that act curatively on the womanly system. It is a medicine for women, and for women only. It builds, strengthens, and restores weak and ailing women, to health and happiness.

If you suffer like Mrs. Fincher did, take Cardui. It will surely do for you, what it did for her. At all druggists.

BLUE LIGHT AN ANESTHETIC

Eastern Scientist Has Demonstrated
the Fact in a Thorough Series
of Experiments.

"One of the most remarkable actions of light has recently come to our attention," says the editor of the Journal of Surgery. "In an address before the Boston Physio-Therapeutic society Dr. E. C. Titus has demonstrated that blue light possessed remarkable anesthetic power.

"In his experiments he used a series of slender glass rods about one-eighth of an inch in thickness, placed side by side and tied together so as to form a kind of flexible mat which will adapt itself to various parts of the body. The glass must be of cobalt blue and transmit no red rays, this being a very important point. The rods are to be placed upon the area to be anesthetized, and some form of white light, preferably a tungsten lamp, brought as closely as possible without causing discomfort.

"Strange to relate, in twenty minutes the part becomes insensible, so that superficial and even deep incisions or punctures are no longer felt. This anesthesia lasts for one-half hour or more, and has occurred so constantly that there is no reason to believe that it is the result of suggestion or accident. Minor surgical operations have been performed under this method and without the least pain or discomfort, and there seems to be enough in it to merit attention.

"More than thirty years ago there prevailed what was afterwards termed the blue glass craze. All sorts of ailments were thought to be amenable to the action of blue light, and the newspapers were filled with glowing accounts of cures. Enthusiasm ran riot for a time and then the matter dropped out of sight.

"Some time later there was a revival of interest in phototherapy when Pinsen demonstrated the curative properties of the ultra-violet ray in various affections, especially lupus. Since then the physiological action of light has been carefully investigated and although much remains to be learned, there can be no doubt that we are nearer to an appreciation of its possibilities in the treatment of disease."

Our Life's Story.

Very often the success which attended our early efforts turns its back upon us in later years, and while for a time we may try to continue in detail the story of our alternate hopes and fears, our victories and our defeats, we soon realize that the record is a sorry one, and we feel ashamed to continue its recountal. We forget the early promises we made to be sincere in the matter of making up our record, and because the story is not one of unalloyed success and prosperity we grow disloyal to our better selves and believe that by making no further entries in our diaries we bring them to a close. Just as we recall to memory in later years, however, the small volumes of our early youth, with their interrupted stories, we are prone also to look deeply into the record we have written in the real diary of life. It was Barrie who said that "the life of every man is a diary in which he means to write one story and writes another, and his humblest hour is when he compares the volume as it is with what he vowed to make it."

We cannot release ourselves from the obligation of writing the diary of our lives. We make the records whether we are willing or not, and for each hour and day of the year of life given to us here on earth there is a faithful entry made.—Charleston News and Courier.

British Island Reclaimed by Dutch.

Canvey Island, which is again coming into prominence in connection with the proposal to establish a great wharf there, is one of the pieces of England which were reclaimed for us by the Dutch. At one period the island was covered with water at high tide, but early in the seventeenth century Cornelius Vermuyden, the famous Dutch engineer, who was afterward knighted by Charles I, reclaimed several thousand acres by the construction of a system of seawalls. The walls are still there, but where are the Dutchmen who made them? Cornelius Vermuyden brought over workmen from Holland and many are known to have stayed here, but now their names have disappeared entirely, from Canvey at least.—Westminster Gazette.

The Aftermath.

The great ball had been given, and Mrs. Noovo was running over the bills with her husband. When it was found that they totaled \$10,000 Mr. Noovo winced.

"By ginger, Maria!" he ejaculated, "ten thousand dollars is a pile o' money."

"We have to do it, Silas, to get into society," replied Mrs. Noovo.

"Well," said the old man, scratching his head, "judgin' from results it don't seem to me that we're gettin' into society quite so much as society is gettin' into us."—Harper's Weekly.

Boy Got the Penny.

At a country school in the Midlands the head master said: "Now, boys, I will give a penny to the first lad who can ask me a question which I cannot answer."

Several tried unsuccessfully, until one boy asked him: "Please, sir, if you stood up to your neck in soft mud and I threw a stone at your head, would you duck?"

The question remained unanswered.—Ideas.

ECHOS FROM CARLISLE

Carlisle Happenings Always
Interest Our Readers

After reading of so many people in our town who have been cured by Doan's Kidney Pills, the question naturally arises: "Is this medicine equally successful in our neighboring towns?" The generous statement of this Carlisle resident leaves no room for doubt on this point.

R. L. Curtis, Policeman, Chestnut St., Carlisle, Ky., says: "I tell every one I know about the merits of Doan's Kidney Pills. I am glad to confirm the statement I made in 1908 in their praise. Any person who follows blacksmithing for any length of time, is likely to have kidney trouble, as this work weakens the back and kidneys. I had a bad case of back ache and my bladder became inflamed. I finally began using Doan's Kidney Pills, and they acted splendidly, soon giving me relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

STOCK, CROP AND FARM NOTES

—The amount of tax collected in Montgomery county during the past year to meet the claims of farmers for sheep killed by dogs was \$1,000. Claims granted to owners amounted in the aggregate to the sum of \$715.15. All the claims were paid in full.

—May Overton, the noted horseman of Nashville, Tenn., purchased last week of John S. Wyatt, of Mt. Sterling, the celebrated show horse and sire, McDonald Chief, which has been shipped to Mr. Overton's Traveler's Rest Stock Farm, near Nashville. The horse is one of the most famous of Kentucky saddle stallions. He was the sire of Dandy Jim. The price obtained for the horse was \$2,500.

—On May 1 the sheep quarantine in Kentucky will be lifted on all counties west and south of the Green and Barren Rivers and all counties that have been successful in eradicating the sheep diseases. Government and State authorities are co-operating in an effort to eradicate the disease in all counties where it now prevails and hope to have the work completed in the near future.

—The Flemingsburg Times-Democrat says: "Quite a good deal of interest was shown last week in a pair of fancy mules sold by E. J. Corsey to Jasper Gregg, of Ohio. They were 16 1/2 hands high, perfectly matched, and weighed 2,700. One of these mules was by Dorsey Bros' renowned jack, out of a mare owned by William Planck. The pair brought \$525, and were pronounced by many to be the best team that ever left Flemingsburg."

Fortunes in Faces.

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches or other blemishes disfigure it. Impure blood is back of them all and shows the need of Dr. King's New Life Pills. They promote health and beauty. Try them. 25c at Oberdorfer's.

Notice to Builders.

There is a city ordinance requiring persons erecting new buildings, or additions, or changing old ones, to obtain first a permit that must be granted by the City Council at a regular meeting.

This ordinance has been ignored to such an extent that it will be necessary to enforce it strictly.

The penalty for building without a

permit is \$5 each day such building proceeds without permit.

The public is hereby notified that the ordinance will be strictly enforced in the future.

If any building or improvement is contemplated the permit should be secured before hand at a regular Council meeting as there is no other authority for granting it.

Beautiful Decorations.

The decorations for the Knights Templar convocation to be held here on May 29 and 30 will be the most gorgeous ever seen here on a like occasion. The committee on decoration, with Mr. Thomas Allen, chairman, after receiving bids from several professional decorators decides to let the contract for the street decorations to the Wm. Beck & Sons Co., of Cincinnati Ohio.

There will be thirty lines of artistically draped bunting, flags and emblems across the main street between Second and Tenth. The Committee on decorations also wish to announce that they have succeeded in obtaining the services of the Beck & Sons Co., to take care of the decoration on private stores, residences, etc. Before placing your order kindly give them a call as you will find that they have some very beautiful and appropriate designs to select from and the prices will certainly be within reason in fact they have been put within the reach of all as it is the wish of the Committee that every house in Paris be decorated. The decorations will be put upon a rental basis. Call Mr. Thos. Allen, Chairman of the decoration Committee. Phone 45. 16-2t

Sentenced to the Reform School.

Harry Prebble, aged 16 years, son of Mrs. M. E. Prebble, of this city, was sentenced to the reform school Saturday by Squire L. J. Fretwell until he attained his majority. Young Prebble has been an offender for some time being of incorrigible nature, and several times has been in the juvenile court. Saturday he appeared at the home of Mrs. Fanni Pugh, with a note purporting to be from her cousin, George Hamilton, asking that she send him the sum of \$10. At first Mrs. Pugh declined to send the money but after Prebble appeared the third time with the note she gave the boy a check for the amount asked for in the note. Prebble then proceeded to the bank where he had the check cashed. It was later learned that the note was a forgery and Prebble was arrested by patrolman Link and taken before Squire Fretwell.

Little "Duplex" Vacuum Cleaner Making Great "Hit" in Lexington.

The little "Duplex" Electric Vacuum Cleaner, which is built in Newark, Ohio, by the Ramey Mfg. Co., is surely causing considerable comment from the housekeepers in Lexington, as over 100 have been sold during the past three or four weeks. It is said this little suction machine will do the same identical work as the large built electric machines, which cost \$125.00 and more. Yet the "Duplex" retails for less than one-third that amount. It saves the housekeeper over one-half her labor in keeping her house neat and clean. No dust is scattered in the home and as the machine is run by electricity, there is scarcely no labor connected with running it.

The same firm that manufactures the Duplex also make the famous little U. S. Hand Vacuum Cleaner which is becoming famous all over the world.

MILLERSBURG ITEMS.

Elder Thomas Smith will deliver his popular lecture, "No Place Like Home," at the Christian church Tuesday evening, April 23, under the auspices of the Ladies Aid Society. Elder Smith has considerable reputation as a lecturer and in the little time he has been in this community he has created quite a favorable impression as a pastor. He should be greeted with a large audience. Admission 15 and 25 cents.

Mrs. George Howard, aged 29, died at her home of typhoid fever Friday about noon after an illness of three weeks. Mrs. Howard's husband was just recovering from an attack of the same disease. For six weeks Mrs. Howard waited on him night and day. A part of the time he was critically ill and it was feared he would not recover. About the time he was convalescent she gave birth to a little son. About three weeks ago she developed typhoid fever. It was realized at the start that there were little hopes for her recovery and at the end her death was sudden. The remains were interred in the Millersburg cemetery Saturday afternoon at 2 o'clock after a short service at the grave by Elder Thomas Smith. She is survived by her husband and two little children who have the sympathy of the entire community in their great loss. Following is a partial list of out of town friends and relatives who attended the funeral: Mr. and Mrs. Fitzpatrick, Mr. and Mrs. Joe Howard, Messrs. Ora and Sam Howard, Miss Ward, Mr. Herman Ward, Lexington; Mr. Rollie Ward Hutchison.

It will either be re-organized by the Cincinnati Clearing House or a receiver appointed by the Comptroller of the Treasury.

Richmond Suffers \$50,000 Fire.

Richmond was visited by one of the most disastrous fires in its history Friday morning, destroying one of the largest lumber yards of the town and doing damage to the extent of \$50,000. The Blanton & Congleton lumber yard was completely destroyed with a loss of \$30,000; L. & A. depot full of freight and nine loaded freight cars; Madison Tobacco Warehouse, damaged; W. H. Douglas Coal offices damaged and the Flat Rock Hotel completely destroyed. The Flat Rock Hotel was conducted by Mr. Alex. Mellinger, who for several years resided in this city.

Notice to the Public.

Springtime is here. It is time to clean up your premises.

Don't mistake the importance of the above sentences. How about that mure heap. Get rid of it. Neither your front or back yard is a place for rubbish of any kind, or ashes, remove them. Don't exhaust the patience of the Health Board. Begin at once and put your premises in first class sanitary condition.

Fly time is almost here. You, as well as the Board, know their nesting places. Break them up.

Grocers, bakers, butchers, dairymen—you owe this community something and that something is put your premises and goods for sale in such shape that they will reflect credit upon you and satisfy a public that is becoming more critical year by year. They know the clean places.

This is the second notice in regard to the removal of hogs from within the city limits. Do you mean to heed it, or are you going to ride rough shod over the Health Board? You can't hide this kind of stock. Don't try it. It may make trouble for you.

A. H. KELLER,
City Health Officer.
